

## **Transfer WinZip to another computer**

- WinZip
- WinZip SafeMedia
- WinZip Courier
- WinZip Self-Extractor
- WinZip Enterprise

## **Transferring WinZip Suite**

To transfer WinZip Suite to a new computer, the steps are pretty straightforward:

1. Uninstall WinZip from the old computer.
2. Download WinZip Suite installer by logging in to Suite Portal.
3. Install WinZip Suite on the other computer.
4. Register WinZip Suite as outlined in KB 129877

## **Transferring a perpetual version of WinZip**

These instructions are specific to WinZip perpetual licenses, however, similar steps can be taken with other WinZip applications.

### **Before transferring WinZip**

Foremost, you should record or obtain your registration information. Here are two ways to find the information:

- Open the About WinZip dialog
- Use the search option in Registered Product Lookup on the WinZip Support webpage.

### **Transferring your application**

1. Uninstall WinZip from the old computer.
2. Download and install the correct WinZip version on the other computer.
3. Register WinZip using the information you recorded.

**Note:** Registration codes are specific to a particular WinZip version. Older versions of WinZip can be downloaded from the Legacy Download Links page.
