1. Open WinZip on your computer.
2. Click on the "?" menu located at the top right corner of the app.
3. Click "Check for Updates".
4. WinZip will now check for available updates. If an update is available, you will be prompted to download and install it.
5. Follow the on-screen instructions to complete the installation process.

Note: If you have a Suite subscription, you may be required to enter your login credentials to verify your subscription before you can download and install the latest update.

Additionally, it's always a good idea to back up your data before installing any updates or making any changes to your system. This will help ensure that you don't lose any important data in case anything goes wrong during the update process.
