

How to burn a Video TS folder in Creator 6 or 7

- Roxio Legacy
- 1. Double-click on the **Roxio Easy Media Creator Home** Icon.
- 2. Click **Disc Copier** under the **Applications** section.
- 3. Make sure you click the **Advanced** button so you can see all of the options.
- 4. Under the **Source** section, place a dot beside the radio button beside **Disc Image** or **DVD-Video Folder**.
- 5. Click the **Select** button, browse to the location of your folder and hightlight it.
- 6. You will see information about the Content appear on the right hand side. You can adjust the options and then click $\mathbf{O}\mathbf{k}$
- 7. Make sure you have a blank DVD in your recorder and click the **Burn** button.
