

WordPerfect Office - Publish to PDF only published the first page of a multi page document

- WordPerfect Office Suite

Workaround:

Check if the export range is marked as "Full document" in Publish to PDF settings.

1. Open the file to be converted into a PDF file.
 2. Click on "File" on the menu bar
 3. Click on "Publish to PDF"
 3. Click on "Settings" on the lower right part of Publish to PDF window.
 4. Place the bullet in "Full document"
 5. Click "Ok"
 6. Now try to publish your document to PDF file.
