ENHANCED Customize Motion

Leverage enhanced Customize Motion tools for more polished speed effects. New Auto Motion Blur will calculate the size, position, and rotation changes between two keyframes and apply the optimal level of blur effect to make your motion look more natural. Ease in and out of object animation seamlessly and take any customized motion in your clips to the next level! Explore an enhanced project preview to see how the animation looks ?together with other timeline clips. Enjoy the convenience of multi-item editing to work with grouped clips and titles and easily switch between objects, easier than ever before.

ENHANCED Usability

Enjoy more intuitive editing from import to export with usability improvements. Use Replace Mode to easily drag and drop video to efficiently create Split Screen videos and Instant Projects. Adjust color with the new Color Picker that introduces novel palettes to get to preferred tones more quickly. VideoStudio?s intuitive tools make it simpler than ever to dive into creative video editing.

ENHANCED Performance

Enjoy a faster, smoother editing workflow with major performance improvements made across the product. ?VideoStudio Pro 2021 is optimized with the latest video hardware acceleration technologies from Intel, AMD, and nVidia, which dramatically improves previewing and speeds up rendering to popular file formats. While your original high resolution file quality is preserved for export, VideoStudio optimizes your editing experience by working with smaller files that render more quickly. Reliable performance, improved rendering, and our fastest interface responses to date make VideoStudio?2021 our best editor yet.
