

I get the message that "The AACCS Key will expire soon? or ?The AACCS Key has expired" What does this mean

- WinDVD

AACS (Advanced Access Content System) is applied to protect Blu-ray contents. For enhanced security, the AACCS Key in WinDVD will require regular updating. Updating your WinDVD AACCS Key is quick and easy, and allows you to continue enjoying your Blu-ray Disc movies.

Please visit [this page](#) to learn how to update the AACCS key.

Sometimes you may also need to update WinDVD to continue enjoying your Blu-ray movies. Please check manufacturer's website to get software update before updating the AACCS key.

Click on the following manufacturer's name for more information:

- [Sony](#)
 - [Pioneer](#)
 - [HP](#)
 - [Asus](#)
