

Activation of WinDVD 9 - Written Instructions

- WinDVD

If you already have the product installed on your computer, you may use your serial/purchase key to activate the program.

To Begin the Activation Process:

1. Launch and/or exit the application.
2. You will get a dialog with either a button that says "Enter Key/Enter Serial Number" or a button titled "Activate Now!". If you have an "Enter Key/Enter Serial Number" button instead, please follow the steps listed below, under Entering your Key/Serial Number and Activating the product online.
3. Click on "Activate Now!". The program should automatically be activated in a few seconds.
4. You will get a confirmation window asking if you would like to Save or Print your activation information. Choose your desired option.

Entering your Key/Serial Number and Activating the product online.

1. Click on "Enter Key" or "Enter Serial Number", depending on the application.
2. On the following page, you will have the option to enter the key/serial number provided in your confirmation e-mail, and then choose the appropriate connection method. **If you are copying and pasting the key/serial number, please ensure that no additional spaces are copied as well, as this will prevent the application from activating properly.**
3. Once you have entered the key/serial number in the space provided, please click on "Connect" to activate online. The program should automatically be activated in a few seconds.
4. You will get a confirmation window asking if you would like to Save or Print your activation information. Choose your desired option.

**** If you get any errors or have problems activating the product online, please contact Technical Support**
