

Painter 2015: Not all color swatches are displayed in Woodcut dialogue when switching to Large colour set view

- Painter

Description of problem:

1. Launch Painter | open an image
2. Effects | Surfaces Control | Woodcut
3. Select 'Use Color Set Library' radio button
4. Click on the Color Set Libraries panel in the application | click panels flyout menu button
5. Select Color Set Library View | Large

Result:

Not all color swatches are displayed.

Workaround:

If not all of the color swatches are displayed when switching the Color Set Library view to Large, close and reopen the dialogue to refresh.
