

Painter: Is my version of Painter compatible with macOS 11.0 (Big Sur)?

- Painter

Painter

We're excited to report that Painter 2021 is compatible with macOS Big Sur 11.0.

Older versions of Corel Painter are not compatible with macOS Big Sur 11.0 and can only be used with the versions of macOS 10.x they were designed for.

If you're planning to move to the latest version of macOS, please find more info about the new Painter and the upgrade here: <https://www.painterartist.com/painter>
