

CorelDRAW 2018: Thumbnails does not show in Corel CONNECT if OFFLINE and using MAP drive to Content

- CorelDRAW Standard

Thumbnails does not show in Corel CONNECT if offline and using MAP drive to Content

Workaround:

In Corel CONNECT, click Settings (upper right), configure Content Libraries from drop down. Click the [Locate] button, reselect Z:\ (or drive) and click OK.

On the left-hand side re-expand Content Exchange > Clipart > for example Animals
