

Print button appears grey after installing WordPerfect X7 Service Pack 2

• Corel Other

If your print button appears grey after installing WordPerfect X7 Service Pack 2 when you have printable text in your active document, you will need to refresh WPO's Printer information.

To resolve the issue:

Note: It is important to remember that whenever a change to the registry is made, it is necessary to make a backup copy of the Windows

registry. For information on how to do this, please click here.

Once your registry is backed up:

- 1. Close WordPerfect Office X7 applications.
- 2. Reset your WordPerfect printer settings:
 - Windows Vista and Windows 7: Go to Start > All Programs > Accessories. Click Run, type "regedit" in the Open Box and click OK.
 - Windows 8: On the keyboard, press Windows key + R. Type "regedit" in the Open Box and click on OK.
 - All other versions of Windows: Go to Start > Run. Type "regedit" in the Open Box and click on OK.
- 3. In Registry Editor navigate to "PrintEngine" it is located in:
 - HKEY_CURRENT_USER > Software > Corel > PrintEngine
- 4. Right click on the PrintEngine folder > Rename. Rename the folder to "PrintEngineOld"
- 5. Your printer information will be refreshed on the next launch of WordPerfect X7
