

?My Library? within the ?Get More? catalog.

- Corel Other

The Corel team is happy to introduce the ?My Library? feature within the ?Get More? catalog.

This new feature works by placing your purchased items here for you to easily access and allows you to install your purchased items.

It is our hope this exciting new feature will enhance your in-product experience by giving you a simplified way to view the items you have already purchased or downloaded.

*Please note, if your purchased item is not appearing in ?My Library? you may need to restore your purchase. This can be completed by clicking ?Help? and then ?Restore Purchases??.

Thank you,

Your Corel Team
