- Toast Burn
- Roxio Easy VHS to DVD Plus
- Roxio Easy CD and DVD Burning 2
- Roxio MyDVD
- Roxio Easy LP to MP3

Corel prioritizes the security of our products. When security researchers discovered a significant vulnerability (CVE-2021-44228) in the widely used Apache logging utility log4j 2.0-beta9 to 2.14.1, our security team conducted an immediate investigation to determine if the vulnerability impacted our products.

Our Roxio line of products do not use any version of the log4j libraries. As such, we have no reason to believe that these products are affected by this recent vulnerability.

We understand that this security vulnerability is a major source of worry for our customers. If you have questions, you may reach out to our Roxio technical support team [here](#).

Corel is continuously monitoring the situation and will communicate any updates appropriately.
