

I can?t open my .gvdesign file anymore, what do I do?

- AfterShot

Please send us the file using the form at <https://support.gravit.io/hc/en-us/requests/new> so that we can check it. You can download your .gvdesign file by going to “[File > Download file...](#)” (in the web app) and “[File > Save to file...](#)” in the desktop versions. Please, also include details as your operational system, Corel Vector version and other additional info you think could help.
