

Error The Operating System has been upgraded after Pinnacle Studio has been installed

- Pinnacle Studio

This error can occur while launching Studio. The entire error is: The Operating System has been upgraded after Pinnacle Studio has been installed. Some or all of the programs features may not operate correctly. We recommend that you re-install the software.

?

If this error occurs, please try these steps:

1. Right click on the shortcut of Studio on the desktop "Studio.exe"
2. Select Properties
3. On the properties Window, select compatibility tab make sure that all boxes in this tab are unchecked.
4. Click OK.
5. Launch Studio and verify that the problem is resolved.
