

Standard content missing from the Studio Library

- Pinnacle Studio

In some rare cases you may find that the titles, menus, Montages, or transitions are completely missing from the Library. If this occurs, try the following steps:

1. Browse to the location shown below:

If you have Studio 16.0.1.98 or greater

Browse to: C:\Users*username*\AppData\Local\Pinnacle\Studio*<version number e.g. 20.0 or 21.0 or 22.0>*\EffectDB

2. Locate the file: EffectRepository.xmp
3. Rename the file to EffectRepository_old.xmp
4. Launch Studio and check if the problem is resolved
