

Pinnacle Studio 20: NewBlue II effects will have watermark

- Pinnacle Studio

This article applies only to Pinnacle Studio 20.

NewBlue Video Essentials II effects will be displayed with a watermark

To resolve the issue, install one of the patches below.

To check whether your Studio installation is 64-bit or 32-bit, look in Help->About

64-bit installations, install [this patch](#).

32-bit installations, install [this patch](#).
