

How to burn a Video TS folder in Creator 6 or 7

- Roxio Legacy

1. Double-click on the **Roxio Easy Media Creator Home** Icon.
2. Click **Disc Copier** under the **Applications** section.
3. Make sure you click the **Advanced** button so you can see all of the options.
4. Under the **Source** section, place a dot beside the radio button beside **Disc Image** or **DVD-Video Folder**.
5. Click the **Select** button, browse to the location of your folder and highlight it.
6. You will see information about the Content appear on the right hand side. You can adjust the options and then click **Ok**
7. Make sure you have a blank DVD in your recorder and click the **Burn** button.
