

Invalid product key installing Creator 2012 PLUS

- Creator NXT

We have created an update to correct this issue during installation. Be sure when you begin installation of Creator PLUS, you choose the option to "Check for updates" to prevent your product key from being seen as invalid. If you do not download the update during installation, then your product key will not work.

This issue only affects some copies of Creator 2012 PLUS sold in the United States.
