

## **"Invalid format" message when burning an AVCHD disc in Creator 2011, 2012**

- Creator NXT

According to AVCHD spec, the bit rate cannot higher than 18Mbps for AVCHD on DVD. This message occurs when your HD video's bit rate is higher than 18 Mbps.

To burn this file you will need to re-export it to a bit-rate lowerthan 18 Mbps in VideoWave.
