

## **Compatibility issues with Easy Media Creator 10**

- Creator NXT

?

The following are the known compatibility issues with other Roxio applications and Easy Media Creator 10:

### **Sonic MyDVD 6 and Easy Media Creator 10:**

Installing MyDVD 6 on a computer with Easy Media Creator 10 already installed on it causes conflicts that prevent the computer from restarting properly.

### **Third-party packet writing software may cause problems:**

Packet writing software provides an alternative to writing entire tracks or discs, but may cause problems when using Easy Media Creator. If you have problems formatting or writing to discs, uninstall any packet writing software and try again.

### **Disable drive emulation software:**

Some drive emulation software may conflict with Easy Media Creator. If you have drive emulation software installed, you should disable it to use Easy Media Creator.
