

Changing menu styles in MyDVD or Creator

- Creator NXT

1. Launch *Easy Media Creator Home*.

- Click on the *Video* tab in the *Project Pane* and then select **MyDVD Express**. Show Me
- In *MyDVD Express* window, click the **Add New Movie** button. In *MyDVD Express - Add New Movie* dialog box, select the movie(s) and click **Add** button when done. Show Me

Tip: To select more than one file at a time, press and hold the **Control** key while you select the files.

Click on the **Change Menu Style** button. In the *Select Menu Style* dialog box, choose the desired style and then click **OK**. You can also use your own background by clicking on the **Change Menu Background**. Show Me

Optional:

New Slideshow: To add a slideshow to your DVD.

New CineMagic: To add CineMagic movie to your DVD.

Trim Movie: To trim unwanted frames from the beginning and end of your movies.

Project Settings: To customize the project settings.

Edit in MyDVD: To continue working on your project using more advanced editing features in MyDVD.

- Click **Create Disc** to burn your DVD to disc. Show Me
