

## Error 1327 Invalid Drive (Drive):\\" when installing Creator 6

- Creator NXT
- 1. Change the drive letter to the drive letter listed in the error message.

## Windows ME and 98 Second Edition:

- a. Right click on the "My Computer" icon on the desktop and then select "Properties"
- b. Click on the "Device Manager" tab
- c. Ensure there is a dot beside the "View devices by type" option
- d. Click on the "+" sign beside the CDROM listing
- e. Double click on the icon for the CD/DVD drive that you are using to install the software from. This will display a properties window for that device
- f. Click on the "Settings" tab
- g. Under the "Reserved drive letters" section change the "Start drive letter:" and "End drive letter:" to the drive letter indicated in the initial error message.
- h. Click the "OK" button and then click the "Close" button
- i. If prompted to reboot your computer click the "Yes" button

## Windows 2000 Professional

- a. Right click the "My Computer" icon on the desktop and select "Manage"
- b. Locate and left click on "Disk Management" on the left hand side of the screen
- c. Locate and right click the icon for your CD Drive and select "Change Drive Letter and Paths..."
- d. Click on the "Edit" button
- e. From the drop down menu change the drive letter to the letter stated in the error message, then click the "OK" button
- f. If prompted with a "Confirm" window click the "Yes" button
- g. Close the "Computer Management" window by clicking on the "X" in the top right hand corner of the window
