

Capturing from PlayStation 4 (PS4) with Roxio Game Capture HD Pro

- Corel Other

With a new update from Sony, PlayStation 4 now works with Roxio Game Capture HD Pro.

To start capturing your game play on a PS4, please use the following steps:

1. Connect your Roxio Game Capture HD Pro to your PlayStation 4 using an HDMI connection.
2. Open the **Capture Gallery** on the PlayStation 4. Access the **Start** menu.
3. Scroll down to **System**.
4. In the **System menu**, scroll down and select **Disable HDCP**.

With HDCP disabled on the PlayStation 4, you can now begin game capture with Roxio Game Capture HD Pro. You will need to re-enable it to be able to watch protected content.
