

Roxio Knowledgebase Transfer

- Corel Other

With the acquisition of Roxio, Corel is pleased to welcome all Roxio customers as we migrate products and services into our processes.

The Corel team is working diligently to ensure you receive the high quality of support we endeavour to provide to our customers. However, we ask you to please be patient during this transition phase.

We are in the process of migrating the Roxio knowledgebase over to the Corel systems. This is why you are seeing Roxio products listed but no articles aside from this one showing up in your search. In the meantime you can still access the entire support library of content here: <http://www.roxio.com/enu/support/default.html>

When we have completed the migration and have everything set up, you will be able to access that content here along with all the other Corel content that we currently have.

Thank you,
Corel Support Team
