

FlexNet Connect vulnerability and its effect on Roxio customers

- Corel Other

1. Customers with version 6 and higher of the Acrezzo updater will receive a "Critical Update" message via the Software Updates manager and the new update will be delivered upon message acceptance.

-OR-

You can download the the Acrezzo updater patch [here](#) and install.

If you are unsure what version you are running, follow the paths below and right-click on the *agent.exe* file and choose **Properties**. Then click the *Version* tab.

6.0 - (C:\Program Files\Common Files\InstallShield\UpdateService)

6.1 - (C:\Documents and Settings\All Users\Application Data\Macrovision\FLEXnet Connect\6)

Note: For users of FLEXnet Connect 6.1 and later, Agent.exe already includes this security fix.

2. Verify your FLEXnet Connect Agent has the security fix applied:
 - ◆ In Windows Explorer, locate *Agent.exe*. For users of FLEXnet Connect 6.0 and earlier, *Agent.exe* will be located in:

c:\program files\common files\installshield\updateservice\
 - ◆ Right-click on *Agent.exe* and click **Properties** . Then click the *Version* tab and verify that *Agent.exe* is version 6.0.100.65101 or higher.
