

## **How to restore or reset Corel Digital Studio to its factory defaults?**

- Corel Other
- 1. Close all Corel Digital Studio applications;
- 2. Launch **Window Task Manager**; to open **Windows Task Manager**, right-click an empty space on the taskbar, and then click **Task Manager**.
- 3. In the Windows Task Manager, go to Processes tab.
- 4. In the **Processes** tab, make sure that the following **Processes** are not running on your computer:
  - a. BurningApp.exe
  - b. Gadget.exe
  - c. MetadataMgr.exe
  - d. MLEMonitor.exe
  - e. PSP.exe
  - f. RtDevDetector.exe
  - g. Standby.exe
  - h. UVS.exe
- 5. If any of the above are still running on your system, right-click on each **Processes** and select**End Process** or **End Process Tree**.
- 6. After making sure that the above **processes** are no longer running, go to taskbar and click on START >> RUN;
- 7. In the **RUN** window, type: %appdata%
- 8. Hit the enter key to open the **Application Data** folder.
- 9. In the **Application Data** folder, delete the following folders/directories:
- a. For Vista:
- i. C:\\Users\\Username\\AppData\\Roaming\\Corel\\Digital Studio
- ii. C:\\Users\\Username\\AppData\\Roaming\\Ulead Systems\\Corel Digital Studio 2010
- iii. C:\\Users\\Username\\AppData\\Roaming\\Ulead Systems\\Corel DVD Factory 2010
- iv. C:\\Users\\Username\\AppData\\Roaming\\Ulead Systems\\Corel MetadataMgr
- v. C:\\Users\\Username\\AppData\\Roaming\\Ulead Systems\\Corel PaintShop Photo 2010
- vi. C:\\Users\\Username\\AppData\\Roaming\\Ulead Systems\\Corel VideoStudio 2010
- **b.** For Windows XP:
  - i. C:\\Documents and Settings\\Username\\application data\\Corel\\Digital Studio
  - ii. C:\\Documents and Settings\\Username\\application data\\Ulead Systems\\Corel Digital Studio 2010
  - iii. C:\\Documents and Settings\\Username\\application data\\Ulead Systems\\Corel DVD Factory 2010
  - v. C:\\Documents and Settings\\Username\\application data\\Ulead Systems\\Corel MetadataMgr
  - v. C:\\Documents and Settings\\Username\\application data\\Ulead Systems\\Corel PaintShop Photo 2010

10. Clean up temporary files and Recycle Bin by launching the <b>Disk Cleanup</b> from <b>Start menu &gt;&gt; Programs &gt;&gt; Accessories &gt;&gt; System Tools &gt;&gt; Disk Cleanup.</b>
11. Re-launch any Corel Digital Studio applications.
Note:
Corel Digital Studio will re-catalog the media files on User?s folder after resetting the workspace.
Application Data is a Hidden folder.

vi. C:\\Documents and Settings\\Username\\application data\\Ulead Systems\\Corel VideoStudio
