

Corel® PaintShop® Pro 2020 - Reasons to Upgrade

- PaintShop Pro

1) Accelerated tools and power for faster results

It just keeps getting better! Put your favorite tools to the test and experience remarkable performance and speed improvements designed to enhance your workflow and efficiency. PaintShop Pro 2020 is faster and stronger than ever so you can spend more time doing what you love.

- **200% Faster Text Rendering**

One of your favorite tools in PaintShop Pro, the Text tool, just got an overhaul. It has undergone impressive enhancements to both speed and responsiveness, and delivers noticeable improvements in rendering, inputting and editing text. You'll also notice a 200% increase in speed when inserting high word count text excerpts into any style of project.

- **Up to 30% Faster Text Editing**

Enjoy amazing speed improvements to various aspects of Text editing including formatting and attributes, alignment and deleting text. Now quick edits, such as changing the font size, type, kerning, leading, or tracking, will happen immediately.

- **Faster Text Wrap**

The popular Text Wrap feature got an overhaul too, making your graphic design projects easier, faster and more fun to create. Whether you're working with Text on a path or within a shape, you'll notice the power of the speed improvements.

- **Improvements based on direct user feedback**

The most commonly used tools in PaintShop Pro were thoroughly analyzed and improved to provide you with the most seamless experience yet. Influenced by direct user feedback, try out numerous improvements to PaintShop Pro's performance, stability and features guaranteed to impress.

- **Faster Pic-to-Painting**

Pic-to-Painting just got 25% faster, allowing you to transform your photos into art automatically, and in much less time!

2) Adaptable and intuitive for all types of workflows

Just like every photo is unique, so are you. And so is the way you like to work. Take your pick of three different adaptable and intuitive workspaces to complement your project workflow. Each workspace was built with a custom toolset and features in order to simplify everything from quick edits, to complex compositions.

NEW Copy and Paste Layer Styles

Layers are an essential component of your workflow. Work with more momentum and ease with the ability to replicate style settings from one layer to another. With one simple click, you can easily copy and paste the details you previously had to manually input.

Improved Depth of Field precision

Experience an amazing increase in precision while using the Depth of Field feature on your Crop toolbar.

Latest stylus and graphics tablet support

Combine PaintShop Pro with a graphics tablet for more expressive results. PaintShop Pro supports all of the latest mainstream and WinTab-aware graphics tablets, as well as Windows Ink, so whether you're drawing, painting, applying adjustments or effects, you can use a pen for more control.

3) Progressive and innovative using current technology

Turning your vision into reality has never been easier with the latest technology engineered into PaintShop Pro. High-powered functions and tools make creating something truly original, achievable.

- **NEW Touch-Ready Photography Workspace**

Experience an all-new, highly simplified workspace that allows you to focus exclusively on quick photo edits. Equipped with all the essential tools you need, the new Photography Workspace provides a simple, yet sleek and intuitive interface. It was specifically built for touch-friendly Ultra HD and 4K to help you work more efficiently.

- **NEW SmartClone**

Clone technology at its finest. The all-new, content-aware SmartClone feature allows you to easily merge elements from multiple images and seamlessly integrate them into one. The results can produce interesting and unexpected designs, as well as composition projects guaranteed to elevate your artwork.

- **NEW Refine Brush**

The Selection tool just got so much stronger. A Refine Brush has been added to your Selection toolset to enable you to select an object with extreme precision and accuracy, down to a single strand of hair. You'll have to see it to believe it.

- **NEW Creative Content**

At the very core of PaintShop Pro is creativity. Which is why we've added new brushes, color palettes, gradients, patterns, and picture tubes. Download the new patterns from the Welcome Book, and find the rest of the new content already built into PaintShop Pro.
