

How to repair the installation of WordPerfect Office

- WordPerfect Office Suite
- WordPerfect Home & Student

In WordPerfect it is possible to do a repair installation of the software to help resolve minor issues that may be experienced caused by some missing components.

To repair an installation of WordPerfect:

1. Close all open applications including WordPerfect
2. Press Windows key + R to launch the "Run" dialog box.
3. On the "Run" box, type: appwiz.cpl
4. Click "OK" or press "Enter" to open the Programs and Features folder window.
5. Right-click on WordPerfect Office version you want to repair from the currently installed programs list and right-click to Uninstall.
6. In the WordPerfect InstallShield wizard, select the "Repair" option.
7. Click "Next", and follow the instructions.
8. When the process is complete, click "Finish".
9. DO NOT LAUNCH ANY of the WordPerfect programs.
10. Restart your computer for any changes to take effect.
11. Launch WordPerfect.
