

Error: 38 - WordPerfect Office X7 files have been damaged or modified. Please reinstall from your original source.

- WordPerfect Office Suite

To solve the Error 38 issue or crash on launch under XP for WordPerfect Office X7 Trial, follow the steps outlined below:

1. Restart your computer
2. Download and unzip two files from this [link](#):

Filenames are: PSIClient.dll
LicensingService.exe

3. Copy the PSIClient.dll file to:

for a 32-bit OS copy to: C:\Program Files (x86)\Corel\WordPerfect Office X7\Programs
for a 64-bit OS copy to: C:\Program Files\Corel\WordPerfect Office X7\Programs

4. Double-click on LicensingService.exe, which will be installed automatically.

You can now launch WordPerfect Office X7 Trial successfully.
