Enhance your footage with color correction and ??and tap into more than 1,500 effects to reveal your personality. With VideoStudio, you have access to advanced tools with simplified controls that are accessible to users of any experience level.

Smart tools and Artificial Intelligence to assist you

Creating engaging movies with your photos and videos is faster and easier than ever with VideoStudio 2021. Transform your media into slideshows and movies in mere minutes with FastFlick, the instant slideshow maker. Simply select a template, drag and drop photos or videos, and let FastFlick work its magic. Leverage Artificial Intelligence with facial recognition and let Highlight Reel, the smart movie tool, automatically select your best shots and clips, avoiding those with imperfections. Save time and make your editing easy and enjoyable with new Instant Project Templates to recreate popular video styles in minutes. You can always dive deeper into your project to edit up to 50 unique tracks simultaneously. Combine ready-to-use templates and effects with your unique customizations to achieve incredible results.

MultiCam Capture and Editing

Capture content from a webcam and record your screen at the same time with VideoStudio's MultiCam Capture Lite. Create on-the-fly how-to videos, product demos, gaming screen recordings, presentations and more to grow your audience. Save editing time by previewing and calibrating the color and brightness of each feed before you record. Explore picture-in-picture effects to overlay your footage and show multiple angles at once, or simply switch between camera angles as the video plays to add interest and draw in viewers. From capturing to editing, VideoStudio delivers the tools you need to create impressive content.

360° video editing

VideoStudio delivers all the tools you need to edit your 360° videos. Quickly add titles, trim videos, and even convert your 360° footage to standard video. Give your audience a unique perspective by controlling the angle of your footage, and explore Tiny Planet and Rabbit Hole effects in just a few clicks. After editing, easily upload your video to YouTube or export it to play back on your virtual reality headset. Enjoy the flexible options of VideoStudio and create eye-catching and entertaining 360 videos to express yourself *from all angles*.

Stop Motion Animation

VideoStudio is the perfect training ground for anyone exploring videography and stop motion animation. Take advantage of the in-product Stop Motion Animation tool to plan and capture your frames from your webcam, or plug in your own camera and control the capture from right inside VideoStudio. Leverage adjustable guides to determine how many frames you need for natural looking motion, then click to instantly compile them to your project and edit further on the timeline.

1. AR Stickers

Add instant fun and personality to your next project with new AR Stickers that enhance emotions and bring playful moments to your videos. These face tracking stickers can recognize and map facial features to make it easy to add silly character ears, show-stopping eyes, larger than life sunglasses, or over the top hats to any project. Adding AR Stickers is the perfect way to emphasize reactions and add personality to gaming videos, reaction videos, and tutorials.

1. Disc creator with menus

VideoStudio delivers the tools you need to easily transform your video projects into polished DVDs to share and play with friends and family. Transform your home movies with VideoStudio MyDVD and quickly create high-quality personalized DVDs with custom menus, titles, chapters, and music. With more than 50 themed templates to choose from, MyDVD makes it simple to style your menu to fit your project. Master the home viewing experience for your next video by burning your project to DVD or AVCHD disc for your friends and family to share and play again and again.

1. Audio tools for the ultimate sound experience

Support your visuals with an outstanding soundtrack! Import your own music or choose a track from Scorefitter, our royalty-free music library, for music that automatically adjusts to fit the length of your clip. It's easy to adjust, mute, and layer your audio directly in the timeline and quickly balance audio levels. Rely on built-in Audio Ducking to detect narration and clean the background noise to keep your voices sounding crisp and clear. Even record your own audio with the built-in voiceover tools and add video subtitles. VideoStudio Pro 2021 makes it truly creative and easy to produce videos that look and sound their very best.

1. Support for all popular formats and devices for easy sharing

VideoStudio continues to track the latest formats to maintain support for all popular file types and devices. When your video is ready to share, convert it to one of many popular formats to view on your favorite device, upload directly to YouTube, or export to disc. VideoStudio supports iPad, iPhone, iPod touch, and Sony PSP/PS4, Windows and Android smartphones, and more. Videos are optimized for the site you choose so that you never risk quality loss. VideoStudio 2021 ensures you have all the support you need to create videos you'll be proud to share on your preferred platform.

1. Performance

Reliable performance and stability make editing in VideoStudio 2021 more efficient than ever. While your original high resolution file quality is preserved for export, you are able to edit with smaller files to speed up rendering. Experience quicker project exporting and enhanced quality when rendering titles, previews, and video masks on the timeline. Hardware acceleration leverages Intel, AMD, and nVidia technologies to dramatically improve interface response times, and rendering to popular file formats. VideoStudio 2021 offers a smooth workflow and stable performance, from import to export.

1. Learning resources

Learn as you go and create impressive videos right from the start by tapping into our wide selection of tutorials.
