

Hotfix is now available for FastFlick on Windows 7

- VideoStudio

This Hotfix is now available for FastFlick on Windows 7 for OEM and standalone version only.

This update fixes issues caused by the February 2016 Windows 7 Security Update from Microsoft.

To download the update click [here](#)

NOTE: If your FastFlick version was provided with your purchase of VideoStudio, please refer to [VideoStudio patches & updates](#) for additional information.
