

Corel ® VideoStudio ® Pro 2020: Top Reasons to Upgrade

- VideoStudio

1. NEW Highlight Reel

Transforming your memories into movies has never been easier! Create movies that showcase the highlights of your latest adventures with VideoStudio's new smart movie creator, Highlight Reel. Just import your photos and videos, and Highlight Reel will analyze and extract the best parts, then compile them together to match the beat of the music. You can always dive in and customize your video further on the VideoStudio timeline. This is the perfect tool for creating one-second-per-day videos, memory montages, and quick movie projects of your vacations and events! *Live Life and Make Movies*, smarter and faster than ever before with VideoStudio 2020.

2. NEW Video Editing Flexibility and Enhancements

VideoStudio 2020 empowers you to work smarter with enhancements that streamline your editing workflow. Both new and seasoned users will love the flexibility and customization built into this release. Access new creative possibilities and combine up to 10 filters on a single clip! Edit effects directly on your timeline with a new shortcut that makes it easy to dive into customizing your effects, color, and motion. New video sharing improvements automatically set up your export parameters to match the project properties of your timeline, which makes it quicker for you to export your videos. A smarter, faster workflow from start to finish!

3. NEW Creative Content Library

VideoStudio 2020 enters a new era with a complete overhaul of the included creative content, focused on making the drag and drop experience modern and accessible. Users can access a wide selection of new, modern media, making it easier to kickstart and embellish video projects. Take advantage of new titles, video backgrounds, textures, animated graphics, LUT profiles, sound effects, and so much more. It doesn't end there! VideoStudio 2020 also features an updated library structure for users to find the material they need to take their project to the next creative level. Everyone gets more of the drag and drop creative media they want, but in a more accessible and usable way.

4. ENHANCED Painting Creator

Create unique moving graphic overlays and empower your inner artist with the enhanced Painting Creator and selection of new brushes from PaintShop Pro. This tool records your brush strokes as you work, enabling you to add your completed piece to your video as a static graphic, or as a live painting! Work smarter by importing a reference graphic to the background to paint over?only your own masterpiece is recorded and added to your project! Your recorded brush strokes are a great way to add unique motion graphics or lower thirds, enhance an introduction sequence, or create a background for your video. Bring your inner artist out and get creative in your next video project using the more intuitive, more powerful, Painting Creator.

5. NEW support for 4K displays

VideoStudio 2020 upgrades the user experience with added compatibility for Ultra HD displays. Users working on a high-resolution monitor (such as a 4K monitor) will notice significant improvements to their editing experience on an interface that is just as crisp as their finished projects. Improved video masking, title rendering, and new creative content contribute to this quality-driven editing interface experience.

6. ENHANCED Performance

Edit more smoothly and render more quickly with VideoStudio 2020! VideoStudio Pro 2020 is optimized for the latest video hardware acceleration technologies from Intel and nVidia, which improves efficiencies and dramatically speeds up rendering to popular file formats. Plus, enjoy faster and smoother 4K editing and playback with innovative Smart Proxy technology. Original high resolution files are preserved for export, but VideoStudio enables you to work with smaller files to improve speed and performance.
