ENHANCED Customize Motion

Leverage enhanced Customize Motion tools for more polished motion effects. New Auto Motion Blur will calculate the size, position, and rotation changes between two keyframes and apply the optimal level of blur effect to make your motion look more natural. Ease in and out of object animation seamlessly, take any customized motion in your clips to the next level! Explore an enhanced project preview to see how your animation looks together with other timeline clips. Enjoy the convenience of multi-item editing to work with grouped clips and titles, and easily switch between objects. Customize Motion improvements make editing and previewing your customized animations easier than ever before.

ENHANCED Mask Creator

Video masking is a powerful tool designed for everything from basic fixes to creative enhancements. VideoStudio Ultimate 2021 expands the creative possibilities of the Mask Creator with new keyframe controls that empower you to quickly and efficiently adjust the position, size, and

angles of your video masks. Jump right into the Mask Creator, without selecting any clips, to create windows in your project and achieve cinema-quality special effects and transitions! Create custom masks to remove objects from footage, target edits to specific areas in your clips, and surprise yourself with what you can accomplish in VideoStudio Ultimate 2021.

ENHANCED Split Screen Template Editor

VideoStudio Ultimate 2021 delivers enhanced tools to help you work smarter across split screen projects. Control objects more easily in the enhanced Split Screen Template Editor, by leveraging new options to zoom in and out of the preview window. No need to re-work your customizations - save time by quickly copying and pasting keyframe edits. With new Replace mode, you can drag and drop your personal clips to swap out generic placeholders, simply and efficiently. Focus on your creativity, and enjoy improvements that streamline your split screen editing workflow.

ENHANCED Usability

Enjoy more intuitive editing from import to export with usability improvements. Easily drag and drop video to replace generic placeholder clips and create projects more efficiently. Adjust color with the new Color Picker that introduces novel palettes to get to preferred tones more quickly. The new Replace Mode lets you drag and drop footage to Instant Project Templates or Split Screen videos with ease. VideoStudio's intuitive tools make it simpler than ever to dive into creative video editing.

ENHANCED Performance

Work faster with an optimized editing workflow and enjoy major performance improvements made across the product. VideoStudio Ultimate 2021 is optimized with AMD, and nVidia, which dramatically improves project previewing and speeds up to popular file formats. Edit efficiently with smaller files to speed up project previewing, preserving your original high resolution file quality for export. Get the reliable performance and stability you need in VideoStudio 2021.
