

Painter 2015: Not all color swatches are displayed in Woodcut dialogue when switching to Large colour set view

Painter

• ranner
Description of problem:
1. Launch Painter open an image
2. Effects Surfaces Control Woodcut
3. Select 'Use Color Set Library' radio button
4. Click on the Color Set Libraries panel in the application I click panels flyout menu button
5. Select Color Set Library View Large
Result:
Not all color swatches are displayed.
Workaround:
If not all of the color swatches are displayed when switching the Color Set Library view to Large, close and reoper the dialogue to refresh.
