

Painter 2016: Thumbnails and file associations with .rif files are not correct when installing Painter 2016 on a system with Painter2015

- Painter

This is caused but a conflict collision in the Windows Registry for the RIF file type.

1. Open the Windows Registry

a. In Windows 10 or Windows 8.1, right-click or tap-and-hold the Start button and then choose Run. R

1. In the search box, or Run window, type the following: Regedit and then press Enter.
2. Registry Editor will open.
3. Click File, then Export and save a copy of your registry

a. See <http://windows.microsoft.com/en-ca/windows/back-up-registry#1TC=windows-7> for more informati

1. Expand HKEY_CLASSES_ROOT
2. Scroll down and locate .rif
3. Right Click .rif key and choose delete
4. Close the Registry
5. Open Windows Explorer and locate a RIF File
6. Right click on a RIFF file Then choose Properties
7. Click on the [Change Change] Button
8. You'll will see two options, both for Painter 2016. One ?Keep using Painter 2016? and below it, another ?Painter 2016?. Select the second one.
