

CorelDRAW: Unable to sign in and see the files in SharePoint drive from the Dashboard/Cloud dialog

- CorelDRAW Standard

In order to view and access the contents of a connected Microsoft SharePoint storage in the Dashboard (i.e., ?Save to Cloud? or ?Open from Cloud?) in CorelDRAW (Windows or Mac) or CorelDRAW.app users should have third-party cookies enabled in the browser, so the authentication process can work properly to sign you in. Some browsers disable third-party cookies by default.

How to enable third-party cookies

Google Chrome

1. Open the menu on the top right (three vertical dots) and select **Settings**. This will open Chrome Settings page.
2. Select **Privacy and Security** from the left-side navigation.
3. Select **Site Settings** in the center section
4. On the Site Settings screen, scroll down to **Cookies and site data** section and click on it.
5. Make sure that the **Block third-party cookies** setting is turned off

Mozilla Firefox

1. Open the menu on the top right (three horizontal lines) and select **Options**. This will open Firefox Options page.
2. Select **Privacy & Security** from the left-side navigation.
3. On the Browser Privacy screen, select the **Custom** option. Uncheck the checkbox next to **Cookies**

Microsoft Edge

1. Open the menu on the top right (three horizontal dots) and select **Settings**. This will open Edge Settings page.
2. Select **Cookies and site permissions** from the left-side navigation.
3. Click on the **Manage and delete cookies and site data**
4. Uncheck **Block third-partycookies**

Apple Safari

1. Open the **Safari** menu from the top-left corner and select **Preferences**
 2. Go to the **Privacy** Tab and uncheck "**Prevent cross-site tracking**"
