

## **CorelDRAW Technical Suite X7 Update 3 - Lattice3D cannot be activated**

- CorelDRAW Standard

An issue has been reported that after the installation of Update 3, the option "Upgrade to Lattice3D Studio CAD Corel Edition" in the Help menu is no longer available.

### Workaround

1. Open Lattice3D Studio Corel Edition
2. Click on File - New

Once a 3D file is opened in Lattice3D Studio Corel Edition, the menu appears and the option to activate is available.
