

CorelDRAW Graphics Suite 2017 or X8: Unable to launch my application

- CorelDRAW Standard

Over the week-end, (April 22-23, 2017) Corel was made aware of an issue preventing a small number of CorelDRAW Graphics Suite 2017 and X8 users from launching their applications.

If you have experienced problems launching CorelDRAW Graphics Suite 2017 or X8 in the last few days, please download and install the Hotfix 1 for [CorelDRAW Graphics Suite 2017](#) or for [CorelDRAW Graphics Suite X8](#).

Once installed, you will have to re-authenticate CorelDRAW Graphics Suite.

Corel sincerely apologizes for any problem this issue might have caused.
