CorelDRAW printing only the upper left corner of files

- CorelDRAW Standard

If CorelDRAW starts printing only the upper left corner of files this is a an issue caused by an HP printer driver. To fix this issue, take the following steps:

1. Completely uninstall the HP printer driver and all related software that gets installed with the driver named 'OJ8600_610.exe'. This is the most recent driver.
2. Run 'MSCONFIG.exe' and select 'Diagnostic Startup'.
3. Reboot the computer.
4. Reinstall the HP Driver. Note: Do not install any of the additional software items the driver allows you to select during install.
5. Re-run 'MSCONFIG.exe' and select 'Normal Startup'.
6. Reboot the System again.
