VideoStudio Ultimate - Error in QT Application at launch

- VideoStudio

Symptoms

After installation and attempted launch in VideoStudio 2020, 2021 and 2022, an error may appear regarding the QT Application is missing or damaged.

Cause

This problem has been recognized to be a fault with installation files of the NewBlue filter package offered in VideoStudio Ultimate.

Resolution

NewBlue has provided an updated installation package that will resolve the issue. Simply download and save the file listed below, then run the installer.
