

Quattro Pro: Currency Symbol (\$, £, etc) is incorrect

- WordPerfect Office Suite
- WordPerfect Home & Student

Symptoms:

Spreadsheets in Quattro Pro which have currency formatting show the wrong currency symbol

Cause:

International Currency settings in Quattro Pro need to be adjusted.

Resolution:

1. Open Quattro Pro
 2. Click Tools, Settings
 3. Click International at the left, then Currency in the under "Selection"
 4. Under Currency, if "Operating System Default" is selected:
 1. Choose "Quattro Pro"
 2. Select the correct country from the drop-down list that appears.
 3. Click OK
 5. Under Currency if "Quattro Pro" is selected:
 1. Either change the country to the correct country OR
 2. Change the setting to Operating System Default
 3. Click OK
 6. Close and re-open QuattroPro, then retry the problem file(s)
