

## Fix 'error 1722' when installing WinZip

- WinZip
- WinZip Enterprise

When trying to install WinZip, some of you might encounter the issue when the **error 1722** appears:

### **Resolution**

There are two options we'd suggest you perform to fix the issue.

#### **Check if the Windows Installer Service is running**

1. Open Windows Start menu > type **services.msc** > press Enter.
2. Double-click the **Windows Installer service**.
3. Set the Startup type of the Windows Installer to **Manual**.
4. Click **Start** to start the service > OK.

## Re-register the Windows Installer Service

1. Close all Windows programs.
  2. Press **Win+R** on the keyboard to open the **Run** window > type **msiexec /unregister** > click OK.
  3. Press **Win+R** again > type **msiexec /register** > OK.
  4. Restart your computer.
