AfterShot Pro / AfterShot - New Cameras, September 2022

- AfterShot Pro
- AfterShot

Symptoms:

Corel periodically adds support for more cameras to AfterShot 3 and AfterShot Pro 3.

In September 2022, support for the following 18 cameras was added to the Get More pane of AfterShot 3.7 and AfterShot Pro 3.7.

The most recent version of AfterShot can always be downloaded on our Patches and Updates page.

Here's how to install camera support via Get More:
AfterShot: How to add camera support to AfterShot/AfterShot Pro via Get More
