

AfterShot: DJI Mini 3 pro DNG files won't open

- AfterShot Pro
- AfterShot

Symptoms:

DNG files created by the DJI Mini 3 Pro won't open.

Cause:

This device is not included in the list of cameras in AfterShot's Get More list.

NOTE: If this camera is added to the Get More list, the item in the Get More list should be used by preference.

Resolution:

1. Download [DJI Mini 3 Pro.afzcam](#)
 2. Open AfterShot
 3. Click Install Camera
 4. Browse to the downloaded file and open it.
 5. Restart AfterShot when prompted.
