

Why can't I access the Community forum?

- Pinnacle Studio
- WordPerfect Office Suite
- Painter
- AfterShot Pro
- VideoStudio
- WinDVD Pro
- PaintShop Pro
- Corel Office
- ParticleShop
- Creator NXT

The Community forums were hosted on outdated infrastructure that is no longer supported by the third-party service provider, and as such, is complex and costly to maintain as an additional platform to our owned support site and team. For these reasons, we will direct all Community traffic to corresponding support pages to address your questions on a platform we manage and maintain. Please note: the decision to retire the following communities does not mean that we are discontinuing sales or support of each product.
